

HVAC

Sealing, Insulating & Quieting the World

65+ Years of Experience & 22 Locations Worldwide

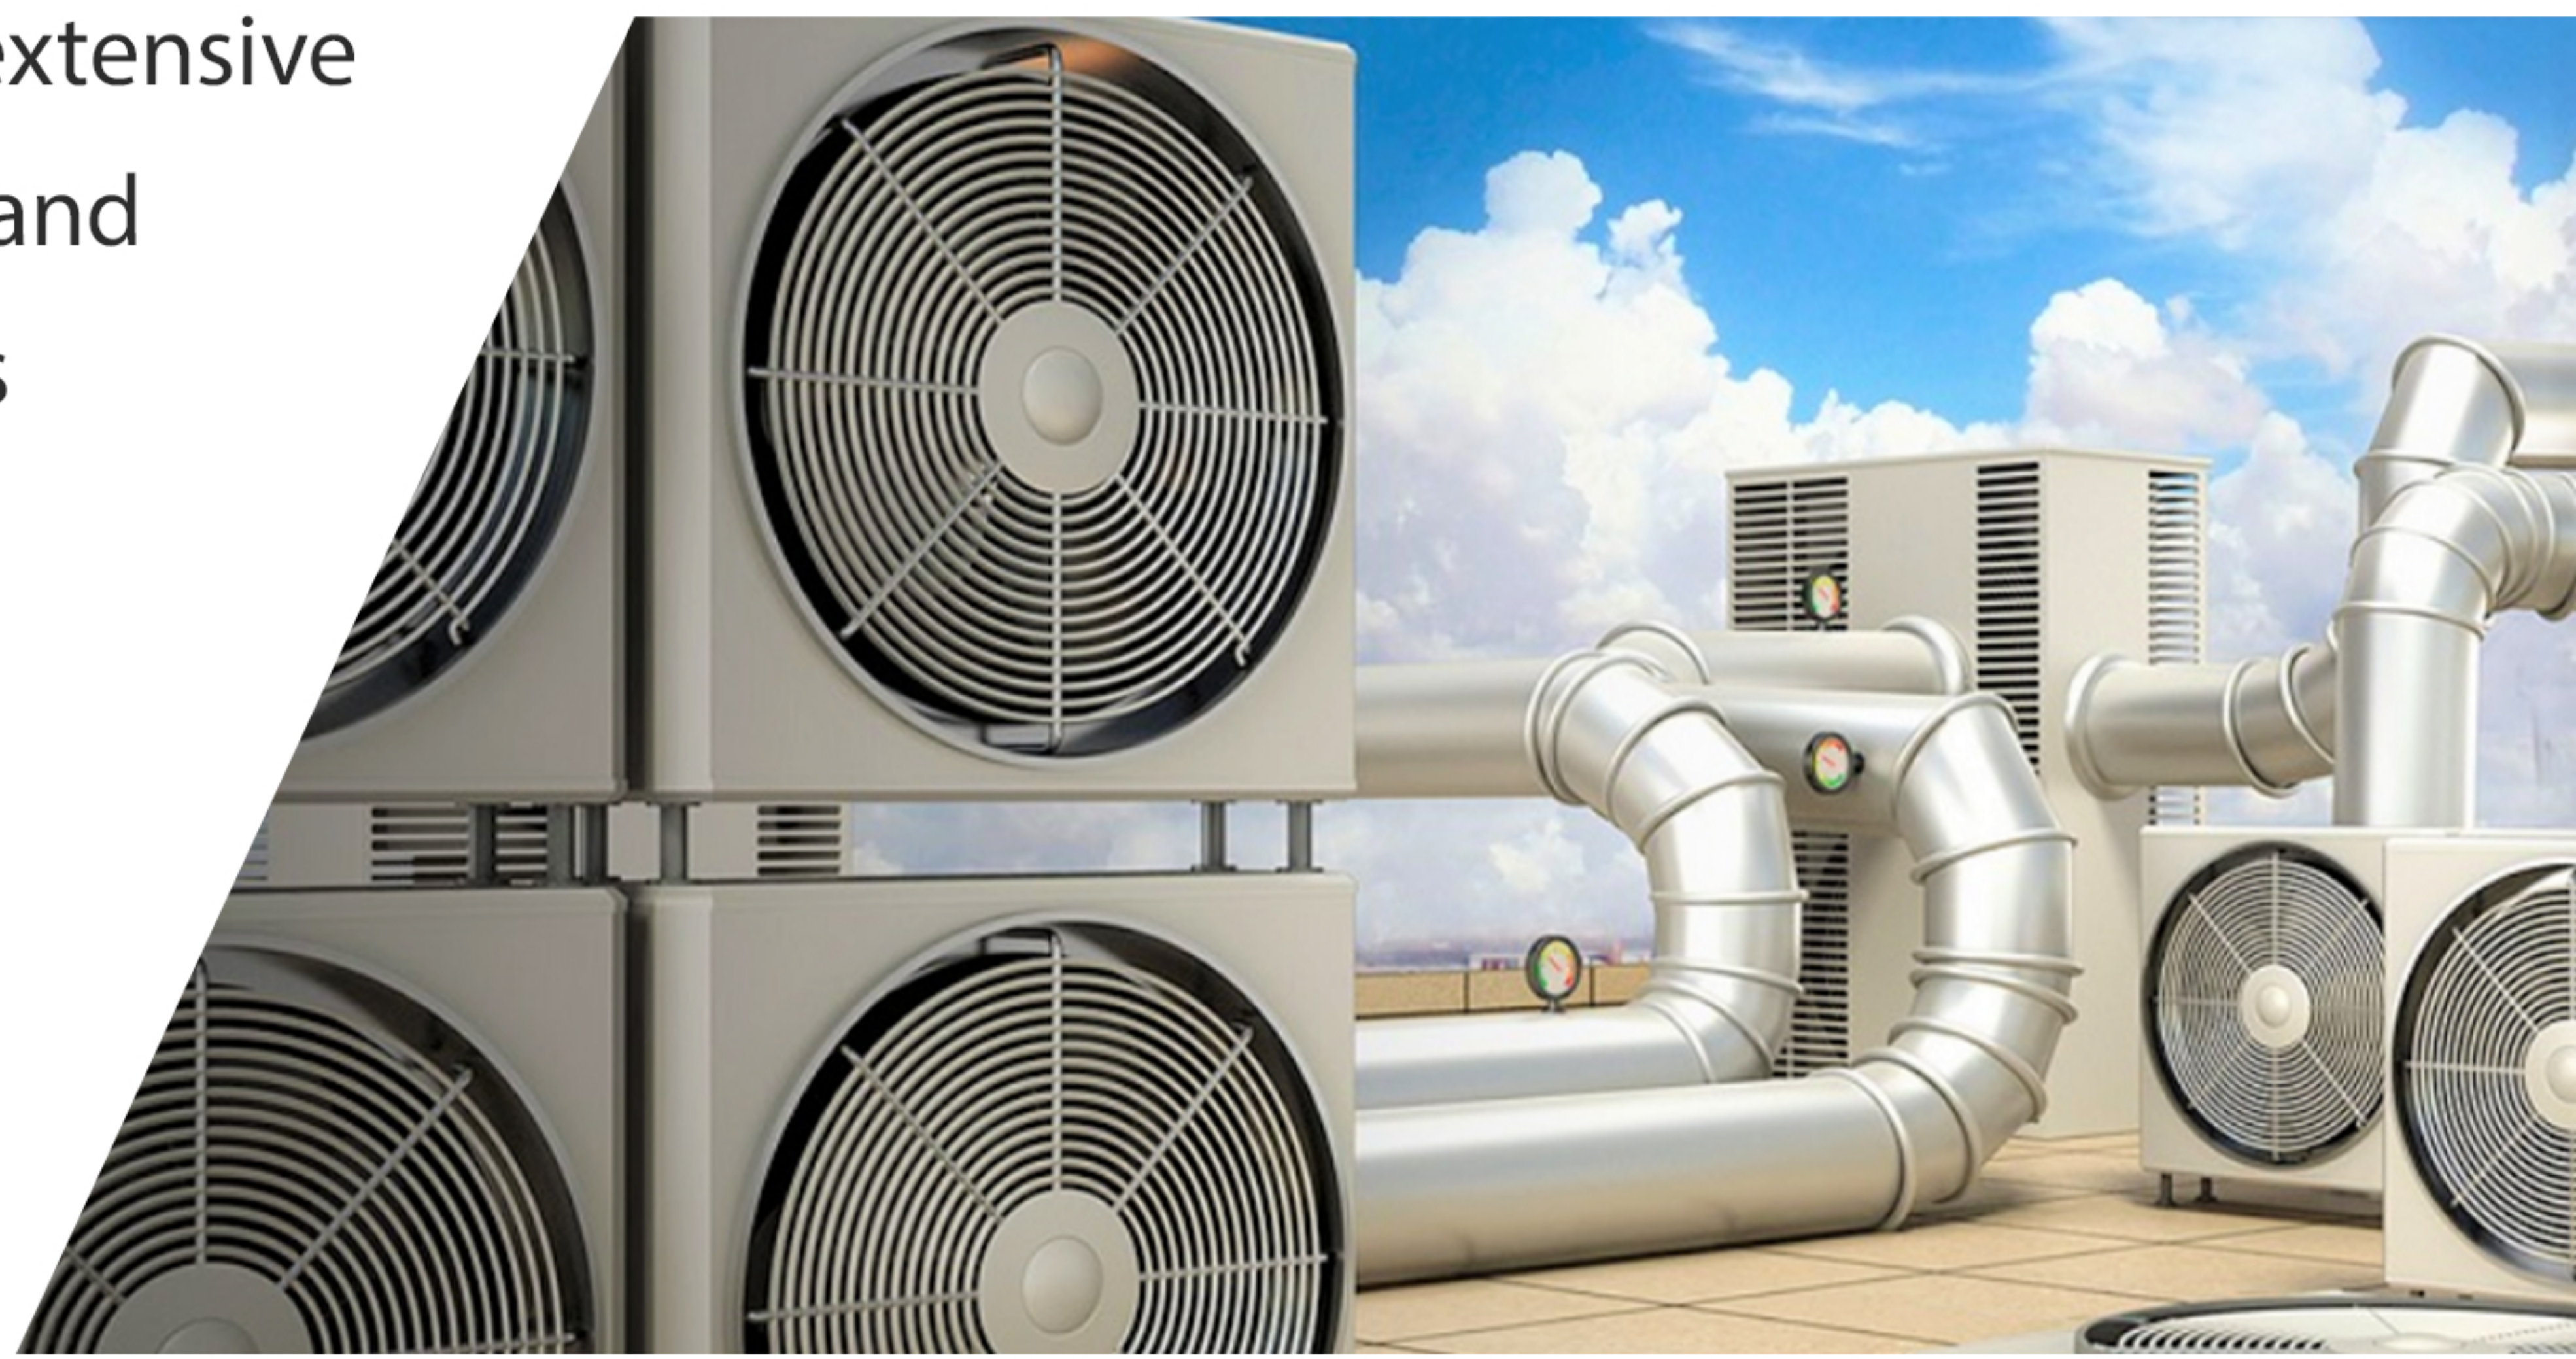

Alabama ▪ Arkansas ▪ Florida ▪ Georgia ▪ Iowa ▪ Indiana ▪ Kansas ▪ Kentucky
Tennessee ▪ Texas ▪ Mexicali ▪ Monterrey ▪ Nuevo Laredo ▪ San Luis Potosi ▪ Nanjing

Applications:

PSC partners with suppliers to offer an extensive line of HVAC insulation for commercial and residential applications. PSC's materials encourage consistent temperature, foster efficient equipment, and help limit unwanted sound and vibration.

Examples of Products:

- Faced & Unfaced Fiberglass
- Gaskets and Sealing
- High Temp Fiberglass
- Cut & Bulk Tubing

Capabilities:

PSC's diverse capabilities allow for fabrication of low, medium, and high-volume parts. These capabilities include rapid prototyping, skiving, laminating, custom die cutting, sewing, molding, laser & water jet cutting, engineering, rotary die cutting, warehousing, JIT shipping, and more!

HVAC

Sealing, Insulating & Quieting the World

Fiberglass

PSC is a Johns Manville Master Fabricator. Through this partnership, PSC offers a wide range of fiberglass to fit any HVAC application. Fiberglass conforms easily around corners and curved surfaces and has superior thermal insulation properties making it ideal for HVAC insulation. PSC's products can be used for commercial or residential applications and are available in a variety of dimensions.

Foam

PSC offers an excellent selection of foams including slit and unslit tubing and foam sheets to accommodate all HVAC needs from acoustic to thermal abatement. PSC's products include EPDM, NBR/PVC, polyurethane, polyethylene, and neoprene blends. This product line offers weather and UV resistant options with a durable skin surface designed to withstand outdoor conditions.

Specialty Products

PSC offers specialty products for the HVAC industry, including high temperature products for low NOx units. PSC also buys and sells materials for JIT shipping and can assemble customers' subcomponents.
